ICP/MS Calibration Standard #3

Catalog Number: IMS-103

Lot Number: CR-1846

Lot Issue Date: 04/21/2017

Expiration Date: 05/31/2021

This Reference Material (RM) was manufactured and verified in accordance with ULTRA's ISO 9001 registered quality system. The analyte concentration(s) were prepared and verified by an ISO Guide 34 / ISO 17025 accredited laboratory, and compared to calibration standards independently prepared using NIST SRM(s). The certified value and uncertainty value at the 95% confidence level for each analyte is determined gravimetrically.
